MT. KENYA FLIGHT SCHOOL

# About us

**Mt Kenya Flight School** is an aviation training institution focusing on flight instruction and operations support training.

We seek to **create and sustain an aviation academic Institution that nurtures individual aviation careers** for our students imparting them with professional and personal skills that curate an employable and desirable Individual.

# Our Mission & Vision

**The Mt. Kenya Flight School has been built on professionalism and accountability in the Kenyan and Sub-Saharan aviation industry and is fundamentally designed to provide cleared education pathways to aviation careers. The goals of this regional aviation education and employment system include:**

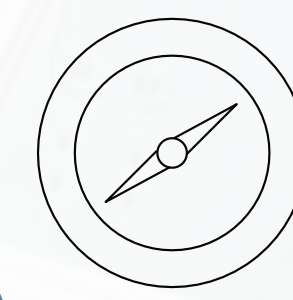

To develop a system that supports a two academic-year higher education program in aviation education.

To create an innovative education and employment environment and through integration and cooperation, maximizes regional education and workforce resources.

To refine and expand upon existing curriculum for the professionals of aviation management, flight, aircraft maintenance and organizational skills.

To develop a comprehensive outreach program that builds and sustains the aviation education and employment system.

## Our Belief

We believe a **unique opportunity for regional development** exists due to the growing **sub-Saharan aviation industry** and related interests in air transport in the region.

The successful integration of education and employment efforts will result in clearly defined aviation **career development paths for students.**
